

I have been a subscriber to XM radio for 1 year now. I find it an incredible resource in every way. Recently I was traveling in the Phoenix area, and I was able to tune in the station with traffic information. It provided immediate information about traffic slowdowns, areas to avoid, alternatives to take, if necessary. There was no searching for a station that MIGHT have the travel information, nor did I have to wait through endless commercials with people talking about things at increased volume that I cared nothing about. The weather portion of the station is also quite helpful.

Sincerely,

David Culver
